

ABOUT ENACTUS

What is Enactus?

Enactus is a global non-profit organization that brings together students, academic professionals, and business leaders from more than 35 countries. It encourages students to use entrepreneurship as a way to solve real social and environmental challenges and create a positive impact in their communities.

Enactus Shivaji College

Established in 2015, Enactus Shivaji College is a student-led organization functioning under Udhmodya Committee. The organization provides students with opportunities to learn beyond the classroom by working on projects that address real-life problems through innovation, teamwork, and entrepreneurship.

Over the years, Enactus Shivaji College has grown into a community of more than 100 dedicated students who are passionate about creating meaningful change. Through community-based projects, workshops, competitions, and collaborations with industry experts and partner organizations, the chapter helps students build leadership skills, gain practical experience, and develop an entrepreneurial mindset. At the same time, its initiatives contribute to the well-being of communities by promoting sustainable and inclusive solutions.

Enactus Shivaji College is involved in a range of activities that bring together innovation, entrepreneurship, and community engagement. The chapter hosts its annual event, participates in business plan competitions, organises fundraising and outreach initiatives, and represents the college at various inter-college events. Members also set up stalls to showcase their projects and conduct awareness drives on important issues like menstrual health, sustainability, and women empowerment. Through these activities, students get the opportunity to learn beyond the classroom, connect with different communities, and work together towards creating a meaningful and lasting impact.

Impact

Enactus Shivaji College has made a meaningful difference both on campus and in the communities it serves. Its projects focus on areas such as women's empowerment, menstrual health, sustainable livelihoods, and environmental sustainability. Alongside community impact, the chapter encourages students to think creatively, take initiative, work as a team, and become socially responsible leaders who can bring about positive change.

Achievements

Over the years, Enactus Shivaji College has consistently represented the institution at national and international platforms, earning recognition for its innovative projects and commitment to creating sustainable social impact.

- **2021:** Project M won the Early Stage Competition at the Enactus India National Competition, marking a major milestone for the chapter.
- **2022:** Project M was ranked among the Top 20 entries at the Enactus World Cup's 77-Second Film Festival, receiving global recognition for its impactful storytelling.
- **2022:** Enactus Shivaji secured a Top 4 Global Position at the Enactus World Cup, reflecting the team's excellence on the international stage.
- **2023:** Received the prestigious "Team Defining Innovation" Award at the Enactus India National Exposition for its creative and forward-thinking approach to social entrepreneurship.
- **2023:** Project Sana and Project Driti were recognised among the Top 19 Mature Stage Projects at the Enactus India National Exposition.
- **2023:** Project Tahaarat was selected among the Top 5 Early Stage Projects, highlighting its innovative work in hygiene and sanitation.
- **2025:** Enactus Shivaji secured a place among the Top 20 Teams in the Early Stage League 3 at the Enactus India National Exposition with Project Avantra.

Beyond Enactus competitions, the team has also earned several accolades in business plan competitions across leading institutions, including a Special Mention at **Bennett University**, reflecting its strength in innovation, entrepreneurship, and impactful problem-solving.

PROJECTS UNDER ENACTUS

Project Sana

Project Sana is dedicated to promoting menstrual health through awareness, education, and sustainable menstrual solutions. By breaking myths, encouraging the use of eco-friendly alternatives, and conducting community outreach programmes, the project empowers menstruators with knowledge, confidence, and access to better menstrual hygiene while fostering a more informed and inclusive society.

Project Karitri

Project Karitri preserves traditional Indian art forms while creating sustainable livelihood opportunities for underprivileged women. In collaboration with POWHER Trust, it promotes financial independence through skill-based entrepreneurship, enabling women artisans to create handcrafted, eco-friendly products while preserving India's rich craft heritage.

Project Avantra

Project Avantra transforms discarded pineapple peels into biodegradable, enzyme-based detergent, giving agricultural waste a sustainable purpose. Currently in its prototype stage, the project promotes zero-waste innovation, supports responsible consumption, and aims to create a cleaner environment through sustainable, eco-friendly household solutions.
