

Activities organized by the Department of Environmental Studies during 2024-25 under experiential learning:

- Nature walks to Herbal Garden for BA (H) Political Science II Semester studying AEC Environmental Science: Theory into Practice of Shivaji College on 9 March, 2024
- Hands-on training programme cum workshop on Recycled Paper Making using Paper Recycling Unit to students of BA (P) IV Semester on 13 March, 2024.
- Hands-on training programme cum workshop on Horticultural Waste Management using Bio-Composting Unit to students of BA (P) II Semester on 20 March, 2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Physics Sem I on 17-10-2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc Life Science Sem I on 18-10-2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Botany Sem I on 14-11-2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BCom (H) Sem I on 21-10-2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Zoology Sem I on 16-11-2024.
- Hands on training on the Vermi Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Physics Sem I on 13-11-2024.
- Hands on training on the Bio-Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc Life Science Sem I on 29-11-2024.
- Hands on training on the Vermi Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Botany Sem I on 26-11-2024.
- Hands on training on the Vermi Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BSc (H) Zoology Sem I on 14-11-2024.
- Hands on training on the Vermi Composting Unit to the students studying AEC Environmental Science: Theory into Practice by students of BCom (H) Sem I on 13-11-2024.

- Hands on training on the functioning of the Sewage Treatment Plant (STP) and Effluent Treatment Plant (ETP) to the students of BSc Life Science sem I studying AEC Environmental Science: Theory into Practice on 29-11-2024.
- Hands on training on the functioning of the Sewage Treatment Plant (STP) and Effluent Treatment Plant (ETP) to the students of BSc (H) Botany and Zoology sem I studying AEC Environmental Science: Theory into Practice on 13-11-2024.
- Hands on training on the functioning of the Sewage Treatment Plant (STP) and Effluent Treatment Plant (ETP) to the students of B Com (H) sem I studying AEC Environmental Science: Theory into Practice on 11-11-2024.
- Hands on training on the functioning of the Sewage Treatment Plant (STP) and Effluent Treatment Plant (ETP) to the students of BSc (H) Physics sem I studying AEC Environmental Science: Theory into Practice on 13-11-2024.
- More 2000 Ashwagandha plant saplings were distributed to the students and staff of the college during May, 2024.
- Large-scale tree plantation under “Plant for Mother” programme from 19 – 31 August, 2024, faculty members and students from almost all the departments of the college participated in the event.
